

Maryland Genealogical Society

Online Databases and Records

Available to MGS Members

Additional data will be added in the future. This is data available as of September, 2015. Check out the MGS web site at www.mdgensoc.org.

Maryland Members' Ancestry Project (Md-MAP)

The Maryland Members' Ancestry Project (Md-MAP) is an electronic database of the Maryland ancestry of current and past MGS members. The information is from paper pedigree charts submitted to the Society over the past 40 years and from electronic files submitted by current members. The data may be searched, viewed, and saved in the form of family group sheets, pedigree charts, and descendant charts. Md-MAP is a work in progress, but already contains information on almost 32,000 individuals. While the Md-MAP database is only accessible to members, anyone can view a cumulative list of surnames in the database from the "Databases and Records" link at www.mdgensoc.org.

First German United Evangelical Church Photographs

The Society has begun posting historical photographs and other information on Baltimore's First German United Evangelical Church (FGUEC). Founded in 1849, the church closed its doors in 2012. Photographs of confirmation classes, congregation members, and pastors are posted. Higher resolution scans of the posted photos can be purchased for \$5.00.
